TRANSPORTATION AGREEMENT

Adequate transportation is a vital part of UNITE's success. It is imperative that you provide ALL modes of transportation available through your church to transport the number of participants that you bring.

Here are the basic requirements:

1. Churches with a participating group under 10 can use cars, trucks, or SUVs. However, if your group is over 10 people, we ask that you primarily bring 12-15 passenger vans or buses.

2. There may be a need for UNITE to request that some or all of your chaperones drive their own vehicles to ministry sites. Therefore, please let us know if your adult chaperones cannot drive.

3. Most ministry teams will have between 12-15 participants from different churches. Since some churches may bring their participants in personal vehicles, if you can provide passenger vans or small buses for extra transportation, it would be GREATLY appreciated. For example, if you are only bringing 14 people to UNITE, but have 2 vans available for use; please consider finding a driver willing to bring the extra van.

4. If you are bringing a large bus that requires a CDL licensed driver, UNITE asks that a driver be available to us for the entire event.

5. Please provide the names, mode of transportation, and number of available seats per vehicle by June 15th.

I have read and agree with the UNITE Transportation Policy.
